## **Health Order Signed Regarding Spring Sports and Extracurricular Activities**

(COLUMBUS, Ohio)—Ohio Governor Mike DeWine announced today that Ohio Department of Health Director Stephanie McCloud has issued an addendum that updates quarantine guidance for student athletes and participants in extracurricular activities who may have been incidentally exposed to COVID-19 in a classroom setting.

The [Addendum to Director's Second Amended Order that Provides Mandatory Requirements for Youth, Collegiate, Amateur, Club and Professional Sports and Extracurricular Activities](#) is in effect now. For spring sports and extracurricular activities, students will not be required to quarantine because they have an incidental exposure to COVID-19 in a classroom under the school-based exposure guidance unless symptoms develop. Students will now be permitted to participate in organized sporting and extracurricular activities as long as they remain symptom-free and follow applicable safety precautions.

However, students who are exposed in other settings outside of the classroom will be required to continue following existing CDC quarantine guidance.
