COVID-19 Update: September Summary, Prevalence Testing, Updated Risk Levels, Worker Upskilling

(COLUMBUS, Ohio)—Ohio Governor Mike DeWine and Lt. Governor Jon Husted today provided the following updates on Ohio's response to the COVID-19 pandemic.

UPDATED COUNTY RISK LEVELS

Governor DeWine today released Ohio's updated Public Health Advisory System map. New health data compiled by the Ohio Department of Health found that 11 counties currently have a very high risk of exposure and spread (Level 3): Ashland, Butler, Clermont, Hamilton, Mercer, Montgomery, Muskingum, Pike, Putnam, Richland, and Scioto. Richland County is on the borderline of a Level 4 public emergency with severe exposure and spread.

"We have 11 red counties, which is more than we've seen at any point in September," said Governor DeWine. "Although many Ohioans are working hard to keep this virus in check, unfortunately, we are seeing a rebound in some areas of the state. This pandemic isn't over, so please continue to stay home if you're sick, wear a mask when you're out, and keep at least six feet between you and those outside of your household."

A county-by-county breakdown outlining the presence of COVID-19 in all of Ohio's 88 counties can be found on the [Ohio Public Health Advisory System's website](https://coronavirus.ohio.gov).

SEPTEMBER SUMMARY

Governor DeWine today released new data summarizing cases, hospitalizations, and deaths reported in Ohio's 88 counties so far in September. The counties are ranked by cases per 100,000 people.

Cases, Hospitalizations, and Deaths in September

County	Cases per 100,000	Cases	Hospital Admissions	Deaths	Population
Putnam	688.1	233	30	5	33,861
Mercer	631.5	260	15	1	41,172
Adams	532.7	348	2	0	65,327
Shelby	522.7	254	11	5	48,590
Wood	424.3	555	30	4	130,817
Henry	407.3	110	11	9	27,006
Butler	402.7	1,543	50	21	383,134
Darke	393.2	201	13	5	51,111
Lawrence	390.2	232	29	6	59,463

Information pulled on 10/1 for case onset dates, hospital admission dates, and death dates from 9/1 to 9/30. Incarcerated individuals are not excluded from this table.

WORKER UPSKILLING

Lt. Governor Husted announced the results of the August 2020 TechCred Application period, which set a record in approving 4,468 credentials through 288 Ohio companies. So far, a total of 983 Ohio employers have been approved for reimbursement, which will yield as many as 11,941 technology-focused credentials for Ohioans. Prior to their election, Governor DeWine and Lt. Governor Husted promised to fund the completion of at least 10,000 micro-degrees per year – a commitment that has been met through this latest round.

PREVALENCE TESTING

Lt. Governor Husted also held an on-air discussion with Dr. Abby Norris Turner of Ohio State University. Dr. Norris Turner described the prevalence testing Ohio State conducted on behalf of the Ohio Department of Health in order to assess how many Ohioans have already contracted COVID-19. The study was conducted over 20 days in July 2020 and included a sample of 727 adults. The study showed that approximately .9 percent of Ohioans were likely infected with COVID-19 during the study, and approximately 1.5 percent had prevalence of COVID-19 antibodies during the study period in July. You will soon be able to access a summary of the study at coronavirus.ohio.gov and viewing the Dashboard Overview page.

WI-FI HOTSPOTS

Lt. Governor Husted thanked the Foundation for Appalachian Ohio for [coordinating efforts between Facebook and T-Mobile](#) that will provide Wi-Fi hotspots to libraries in Southeast Ohio. These internet-enabled devices will be available to patrons to check out in the same way they would borrow a library book or film. The effort aims to give opportunities for at-home internet usage for those who do not have reliable access to broadband. Facebook donated the devices at no charge and paid for 6 months of unlimited network usage on the T-Mobile network. T-Mobile will fund an additional 6 months of connectivity for the devices as well as help get the hotspots ready for use and provide ongoing technical support.

LONDON STOCK EXCHANGE ELITE PROGRAM

Lt. Governor Husted also recognized Greater Cleveland Partnership (GCP), Fifth-Third Bank, and JobsOhio for offering financial support so 10 companies will be able to participate in the London Stock Exchange ELITE program. ELITE will work with each of these business

owners to develop clear, actionable plans around preparing for future growth, developing world-class strategy and operational functions, and accessing regional and global capital markets.

The London Stock Exchange's ELITE Program is opening their first headquarters in the Americas in Cleveland, Ohio, which Lt. Governor Husted announced while on a business development mission to the United Kingdom in 2019.

CURRENT COVID-19 DATA

There are 155,314 confirmed and probable cases of COVID-19 in Ohio and 4,817 confirmed and probable COVID-19 deaths. A total of 15,606 people have been hospitalized, including 3,297 admissions to intensive care units. In-depth data can be accessed by visiting coronavirus.ohio.gov.

Video of today's full update, including versions with foreign language translation, can be viewed on the [Ohio Channel's YouTube page](#).
