## COVID-19 Update: Stay Safe Ohio Protocol, Curfew Extension, Sports Variance

(COLUMBUS, Ohio)—Ohio Governor Mike DeWine and Lt. Governor Jon Husted today provided the following updates on Ohio's response to the COVID-19 pandemic.

### STAY SAFE OHIO PROTOCOL

Governor DeWine today unveiled the new Stay Safe Ohio Protocol. The protocol was developed in partnership with medical professionals across the state to inform Ohioans how to safely live with the virus.

Governor DeWine was [joined by medical professionals throughout the state to explain the importance of the protocols.](#)

### CURFEW EXTENSION

Governor DeWine announced today that the Ohio Department of Health will be extending the 10 p.m. to 5 a.m. statewide curfew until January 2, 2021.

The curfew does not apply to those going to and from work, those who have an emergency, or those who need medical care. The curfew is not intended to stop anyone from getting groceries or going to the pharmacy. Picking up carry-out or a drive-thru meal and ordering for delivery will be permitted, but serving food and drink within an establishment must cease at 10 p.m.

“COVID-19 is the single greatest threat to the physical well-being of all Ohioans, the mental health of our citizens, and our economic security,” said Governor DeWine. “We must do everything we can to slow down the spread of this virus.”

The decision to extend the curfew was made with input from the medical and business communities with consideration to the economic impact and health care system.

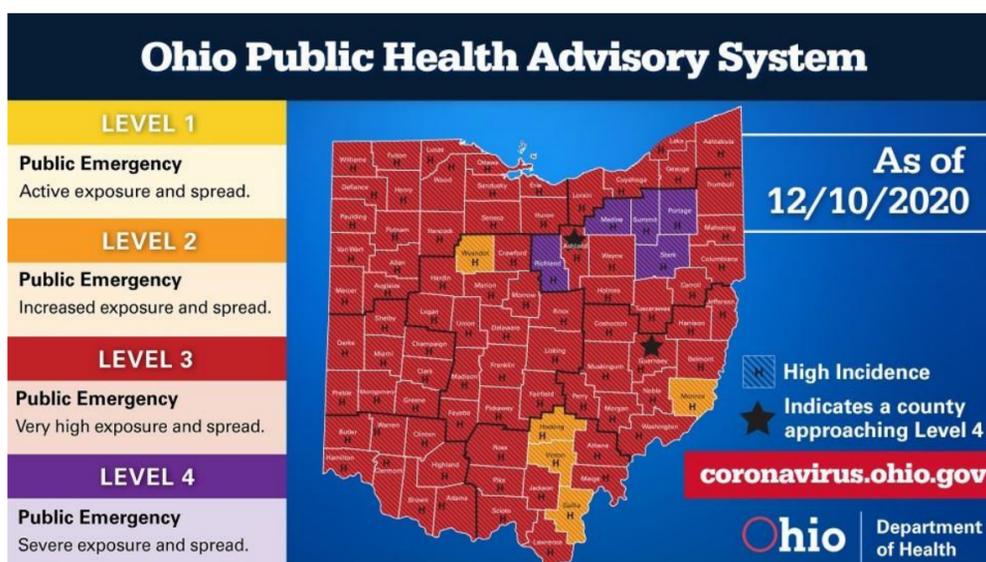

The extended order can be found at [coronavirus.ohio.gov](#).

### OHIO PUBLIC HEALTH ADVISORY SYSTEM

New health data compiled by the Ohio Department of Health (ODH) showed sustained severe exposure and spread (Purple Level 4) in Medina, Portage, Richland, Stark and Summit counties. Ashland and Guernsey counties were moved to the Watch List.

Noble, Harrison and Washington counties moved to Red Level 3 for the first time since implementation of the Advisory System in April.

Ohio also had 11,738 new cases reported between yesterday and today, which is the fourth highest case count to date. A total of 452 new hospitalizations were reported, as well as 111 deaths.

A county-by-county breakdown outlining the presence of COVID-19 in all of Ohio's 88 counties can be found on the [Ohio Public Health Advisory System's website.](#)

### SPORTS VARIANCE

The Ohio Department of Health will issue a variance to the curfew for specific sporting events in Ohio. The start times of these games are dictated by national television contracts, and as a result, the games would not be finished until after the 10 p.m. curfew.

More information will be available at [coronavirus.ohio.gov](#) in the coming days.

### DINE SAFE

Lt. Governor Husted encouraged Ohioans to do what they can to support local restaurants during this time, whether it's by carrying out a meal at least once a week or by ordering delivery. He also recommended giving out restaurant gift cards as gifts for family and friends this holiday season.

## ECONOMIC DEVELOPMENT

As another update in Ohio's economic recovery, the Lt. Governor discussed two new projects that are putting Ohio on the map as far as innovation in transportation technology.

**Agility Prime:** Earlier today, the Lt. Governor joined officials from the Air Force Research Laboratory, Dayton Development Coalition, JobsOhio, City of Springfield, BETA Technologies, and Joby Aviation to participate in a virtual groundbreaking event for a new advanced urban air mobility technology simulator facility at the Springfield-Beckley Municipal Airport.

The Air Force recently launched the program, which seeks to accelerate the commercial market for advanced air mobility aircraft and create a robust domestic industry and supply chain to support their development and production.

**Waymo:** Last week, Waymo – one of the world leaders in autonomous driving technology – announced their plan to develop new proprietary features at TRC's SMARTCenter to help them advance their Waymo Driver self-driving system and driverless Class 8 truck. This is a big win for Ohio as it's the first time Waymo has established a permanent presence at a third-party test site.

The Lt. Governor underscored what these announcements mean to Ohio's recovery and how they attract investment, new technologies and workforce development.

"This can really be an important part of the foundation for our economic recovery in 2021," Lt. Gov. Husted said. "We really welcome these new investments from companies who are outside of Ohio – who are bringing their investments to Ohio – to start brand new innovations, brand new companies and brand new technologies that we hope will benefit Ohioans for generations to come."

## FOODBANKS

First Lady Fran DeWine encouraged Ohioans to consider donating to The Ohio Association of Foodbanks, which serves all 88 counties. The Ohio National Guard has assisted foodbanks throughout the state this year in distributing more than 79 million pounds of food.

More information about how to donate can be found at [OhioFoodbanks.org/Coronavirus](https://ohiofoodbanks.org/coronavirus).

## CURRENT CASE DATA

In total, there are 531,850 confirmed and probable cases of COVID-19 reported in Ohio and 7,298 confirmed and probable COVID-19 deaths. A total of 31,142 people have been hospitalized throughout the pandemic, including 5,090 admissions to intensive care units.
